

# MOTOR INCENTIVE APPLICATION INSTRUCTIONS

## ELIGIBILITY

- Energy efficient motor incentives are available to large power customers who purchase and install premium efficiency motors.

## REQUIREMENTS AND CRITERIA

- The rebate is available for replacement motors only.
- The installation must be at least ten horsepower.
- The motor must be installed in a large power account served by Sioux Valley Energy.
- This energy efficiency incentive program covers equipment during the program year in which it is purchased and installed.
- The motor must operate a minimum of 1,500 hours a year.
- Incentives are \$10/HP for qualifying premium efficiency motors. Maximum incentive for one location is \$2000.
- The equipment must be new, installed and operational at the customer's premise.
- The member must provide documentation verifying the motor's size, type, make, and model.
- The motors must be NEMA premium efficient motors that meet or exceed the standards set forth in the National Electric Manufacturers Association's (NEMA) MGI-2006 publication.
- SVE staff may conduct an inspection of the facility to survey installed motors.
- Equipment must be purchased and installed before an energy efficiency incentive is issued.
- All products must be UL-listed and installed per manufacturer's instructions.
- The Cooperative will issue reimbursement via check. The program is valid through December 31 of the current year.

## HOW TO APPLY

1. Complete the following rebate application.
2. Attach proof of motor purchase which includes a sales receipt(s) or invoice(s) itemizing the new equipment and indicating the size, type, make, model, purchase date, efficiency and vendor.
3. Return completed application and supporting documentation to:
